

## HABITAT AWARD FOR THE BEST DESIGN SHOW

August 23 – 27  
Design Show  
by Vibhor Sogani

When a designer such as Vibhor Sogani displays his work, one gets the rare opportunity to see just how harmoniously the eye of the aesthete and the penchant for product practicality can combine. Often taking waves as his point of departure, this designer from NID's work translated the undulating, fluid forms into a whole gamut of products ranging from CD racks, and lamps, to picture frames, clocks and ashtrays. Among his most exciting designs, were potpourri spheres and essential oil/ittar/incense vials all cleverly packaged to make attractive gifts. The show was organised by Vis-à-vis and received much acclaim at its colourful opening, attended by many prominent personalities.
